Independent Writer

BRADFORD — Dan Williams, President of Williams Agency, has made a reputation for himself as the go-to company if you're looking to pay the lowest amount possible for your auto insurance without sacrificing coverage.

Now he is offering an exciting new program that will take discounts to the next level. If you're a good driver, this program will help you save even more money on your auto insurance premium.

By using modern technology, you will be able to prove you really are the best of the best when it comes to driving and that you deserve an additional discount.

If you're interested in taking part, here's how the program works: Williams Agency will send you a device that you'll plug into your car's OBD (On-Board Diagnostics) port which is located below the dashboard on the car's left side. It's easy to install, just remove the plastic cap on the OBD, plug it in and drive. The device will record your driving habits and communicate wirelessly with the carrier's servers.

After just 30 days, you could earn an initial discount of up to 30 percent for the rest of your first policy period. Now that's exciting news!

The device will be plugged into your car for six months. After that time you'll return it and any discount you achieve will continue for the life of your policy or until the carrier requests updated vehicle use information. It's that simple and easy.

If you decide the device is not right for you, then just return it. Your premium on your policy will not be affected in any way.

Here's what you need to consider before calling Williams Agency:

Are you willing to keep the device plugged in your vehicle for six months?

Do you drive less than 15,000 miles per year?

Do you usually stay off the roads between midnight and 4 a.m.?

Do you usually avoid braking hard?

If you answered yes to all of the above questions, imagine getting the opportunity to save an additional \$300 on a \$1000 policy or \$600 on a \$2000 policy. That's a lot of money!

If you're a good driver and would like to prove it, Williams Agency wants to give you back a large portion of your premium.

Don't delay, call us today because there are only a limited number of devices available.
